Learner Driver Mentor Training

What is Jumpstart?

The Jumpstart Learner Driver Mentor Programme is run by the Geeveston Community Centre Inc (Locally known as GeCo). We provide assistance via our volunteer drivers, to mentor learners in cars owned and maintained by GeCo.

Mentors are there to be a surrogate friend or family member. They do not 'teach', only offer the benefit of their experience. Our mentors do have training, but they are not educators.

The aim is to take some of the pressures of getting a learner on the road out of the equation, such as:

- Not having a suitable vehicle to practice in
- Not having a suitable friend or family member for the learner's needs
- Financial strain of insurance/petrol
- Creating routine and repeated learning environment in time-poor families

So how does it work?

Trish Tinkler is our Jumpstart Manager, who will meet with the learner driver and assess how we can best help them. She looks at the timetable, and matches the learner up with an appropriate mentor suited to their learning needs.

We set up a meet and greet, and then the learner will go on a drive with their mentor to see if they are a good fit. All the driving sessions are run as 'real life' exercises. So expect runs into Huonville and Kingston, navigating traffic, shops and car parks.

What does it cost?

Participants do not pay for the programme, and our Mentors are volunteers. We apply for funding to pay for the vehicles and their upkeep, and the time put into scheduling and administration. We look for a commitment of 1-2 hours per week from our mentors but welcome any assistance you can provide. Get in touch with Trish to discuss what will work for you.

Training

Our mentors have access to a training session before they start mentoring, and then regular catchups with the Jumpstart Team and occasional upskilling sessions run by Driver Mentoring Tasmania.
